

The recent Notice of Proposed Rulemaking by the FCC regarding the recording of programming for up to 90 days would represent a hardship for us. As a small broadcaster we do not have the resources and can not absorb an expense like the large market consolidators.

Small market broadcasters do not rely on outrageous stunts or material to attract listeners. We achieve success by super serving the communities we broadcast to.

Please reconsider this rulemaking and review the number of complaints against small market broadcasters versus large market broadcasters.

Sincerely,
Greg Dinetz
President/CEO
Grenax Broadcasting LLC
